

F^{BAM!}M Visualized

RISK

How we identify and then eliminate, mitigate or prepare for risks to people, assets and the business, including: system failures, weather events and external impacts.

SAFETY

How we keep our staff, company employees, visitors and contractors safe in our facilities.

ASSETS

How we maintain the condition, reliability and value of assets we manage.

How the facility looks and feels to employees and visitors.

Key Facility Management Responsibilities

These seven key responsibilities are how professional FM's support their organizations.

VALUE

How we balance the cost with benefits. Both saving money and spending money in the right place.

How we minimize the impact of the facility on the environment by reducing emissions, waste, consumption and chemicals.

ENVIRONMENT

IMAGE

How productive the employees or processes are, based on the environment we provide so they can succeed in their core business.
